Aston Health: Own Hotline

Toll free number

Free calls from any region of Russia (8800…)

Dial-back

Hotline operators will call back if the participant has left a message (calls outside business hours)

Coverage of time zones

Hotline operation hours may be extended to 15 hours (4 a.m. to 7 p.m.)

Standard operation hours: (8 a.m. to 6 p.m.)

Focus on target testing

Request filtering allows to avoid redundant testing

Aston Health: Proprietary Database

WEB platform

Aston protected database that allows collection, processing and storage of clinical and other data

Access for Client

Client is provided with access to project database

Time saving

Participating HCPs do not need to complete multiple forms. They may forward information online to project data managers

Any mobile apps

Project database can be uploaded to any mobile device
